A VETERAN OF WORLD WAR II
PROPER CARE KEEPS HIM FIT!
KEEP THIS "VETERAN" IN SHAPE BY--
1. Letting WARM FOODS cool before putting them inside the 'vet'.
2. Leaving air space inside for circulation, don't give the old boy indigestion.
3. Don't yank out his ice trays or you may hurt his freezing compartment.
4. Defrost him regularly and clean out his insides with warm water and baking soda.
5. Watch his temperature. He's supposed to preserve foods and not freeze them.
6. Call a doctor (repair man) if anything serious goes wrong with him.
